4. Old Business
5. New Business
6. Young Eagles
7. Future Projects
8. Schedule the Next Meeting

President's Message

March Fajita Fly In

President's Message

WHAT A FLY-IN!! The weather was great, we had lots of planes visit (81), plenty of food and enough help to make it run smooth. Thanks to all of those who helped.

Lots of interesting planes: a bright yellow Lancair, lots of RV's, several classic Cessna and Pipers. One RV flyer who name I can't recall, has been to our fly in several times with his unpainted RV. Came this month with it painted a beautiful red, white and blue.

And, of course, there was the black jet from Conroe with 4 RV's as escort. What a treat!! We hope everybody comes back next month.

One thing we don't want to happen is those people who are working at every fly-in to get burned out. We need more participation from more of our members.

We have received two essays from prospective Air Academy attendees. IF any YE pilots have recommendations you need to let Linda or I know.

If you haven't visited our new website at www.eaa1219.org do it now. Tim Bryan is doing a really excellent job developing the site.

Don't forget the regular chapter meeting this Saturday at 10 AM at the Lufkin airport. Joe Denman has a special project he would like to talk about.

Jack Porbeck
President

Business Meeting

Our Regular meeting will be this Saturday at 10 AM. Come early, stay late, and tell some stories.

YOUNG EAGLES:

Dateline Sat. Mar. 8, 2008

As the day started the sky was full of airplanes and excited. Then a really cool jet landed and all the kids that were at the airport ran out to look at it. Made for an extra bonus for them before they got to hit the skies for themselves.

I want to say THANK YOU to all my pilots that heard my call and came out to help! We even had Eric Koch from Jasper come help us. Thanks Eric, we appreciate that very much. Just got to get you signed up with our chapter...lol...just kidding, we know you belong to Jasper's Chapter.

My pilots and the kids they flew were:

Harvey Bruner...3 new and 1 return (Colton)
Terry Cartwright...2 new
Newt Courtney...1 new and a special rider...Flat Stanley (school project)
Ralph Day...3 new
Robert Dickens...3 new...Welcome back Robert!
Eric Koch...1 new and 2 return...thanks for your help Eric
Don Lymbery...3 new and 1 return and Don also had a Flat Stanley!
Kent Walker...2 new

22 Young Eagles in all flown plus two Flat Stanley's! Next month we have several kids that have called in plus a church group. SO let me know if you can fly??
April 12th... 8 to 10 AM

JULY 28 – August 3, 2008
EAA AirVenture Oshkosh

EAA Technical Counselors:

Technical Counselors are experienced airplane builders, restorers, and mechanics who volunteer their time to visit other EAA members who are in the process of building or restoring their own aircraft. The goal of the Technical Counselor Program is to help EAA members present a "zero defect" aircraft at its final inspection by the FAA.

You're at that point in your homebuilding project when a second set of eyes looking over your work sure would be comforting. I can hear the questions in your mind: Did I really do this right? Does that look right?

It doesn't matter whether you've just finished your wing rib jig or made the first glass layups, these folks are around to help. People who can pat you on the back and say, "No, seriously, it looks fine," or say, "Have you considered doing it over?" This is a vehicle in which you're going to defy gravity; it's obviously better to be safe than sorry.

What you need is an EAA Technical Counselor who wants to share their knowledge and expertise with you.

George Scott is a member of EAA Chapter 1219 and technical counselor.
