- 5. New Business**
- 6. Young Eagles**
- 7. Future Projects**
- 8. Schedule the Next Meeting**

President's Message

April Fajita Fly In

President's Message

What a great day for a Fly-In!!
The wind made for a couple of exciting landings but 66 planes in all made the trip to Lufkin. We also had a great day flying YE's.

Many thanks to all who help make the event run smooth. We had good help both inside and outside.

DUES – Annual dues were due at the first of the year. We have a few members who still have not paid and the rules dictate

that unpaid members be dropped by the end of April. We don't want to lose anybody. IF you haven't paid your dues yet please pay them at the next meeting. If you can't make the meeting, you can mail them to: EAA Chapter 1219
830 Airport Blvd
Diboll, TX 75941

If you are unsure whether you have paid or not, contact Treasurer Steve Reeves at (936) 637-1639.

If you haven't been down to the EAA hangar lately to check out the projects be sure and visit. Some interesting stuff going on.

Also, check our new web site at www.eaa1219.org. Tim Bryan has done a great job but needs input... pictures, etc.

DON'T FORGET !!! Safety meeting is *this* Tuesday. We will start about 5:30 to give those who want to fly in time to get home before dark. Topic will be "Flight Planning Today" using the WEB, Flight Following, etc.
Jack Porbeck
President

Business Meeting

Our Regular meeting will be Saturday, April 19 at 10 AM. We will meet in the EAA hangar. As always, we will have several important items on the agenda. We have the most active chapter in this area and we need your participation. See you there.

YOUNG EAGLES:

Dateline Sat. April 12, 2008

We had a beautiful day for the fly-in and a small, but good turn out for YE's. With the past few months being very busy, I took April for a smaller group and had some returns come and fly, since we have not been able to do so this year.

Thanks to these pilots for their help and dedication:

Bruner, Harvey....1 (sorry about the trouble with brakes on your plane)
Cartwright, Terry...5 4 new 1 return
Day, Ralph....3 2 new 1 return
Hendry, Rick...4 3 new 1 return
Lymbery, Don...6 4 new 2 returns
Reeves, Steve...3 new Good to have you back...with BOTH hands!

That was a total of 22 YE's flown...17 new and 5 returns!

Total money received: \$183.00
Donations: \$98.00
Raffle (one day only) donated by
Kim: 31.00
Pictures: \$54.00

I will try and have a similar group
for the fly-in in May. As we need
some of our return YE's coming
back.

We are supposed to have a couple
of other Chapter Fly-In's in the near
future. I think Nac. is wanting
their's Oct. 4th, Center and San
Augustine are also wanting
Chapter YE Fly-in's. I think Center
will be May 4th and San Augustine
is in August. I will check and make
sure and report Saturday the 19th
at our meeting.

Linda and Rick

EAA Technical Counselors:

Technical Counselors are
experienced airplane builders,
restorers, and mechanics who
volunteer their time to visit
other EAA members who are in
the process of building or
restoring their own aircraft. The
goal of the Technical Counselor
Program is to help EAA
members present a "zero
defect" aircraft at its final
inspection by the FAA.

You're at that point in your
homebuilding project when a
second set of eyes looking over
your work sure would be
comforting. I can hear the
questions in your mind: Did I
really do this right? Does that
look right?

It doesn't matter whether you've just finished your wing rib jig or made the first glass layups, these folks are around to help. People who can pat you on the back and say, "No, seriously, it looks fine," or say, "Have you considered doing it over?" This is a vehicle in which you're going to defy gravity; it's obviously better to be safe than sorry.

What you need is an EAA Technical Counselor who wants to share their knowledge and expertise with you.

George Scott is a member of EAA Chapter 1219 and technical counselor.
